This test will assess your understanding of some of the hazards and considerations of working in the communal shop here at Danaca Design Metal Crafting Center. If this test feels difficult then we will review the information together until both you and I feel confident that you will not pose an unnecessary hazard to yourself or the studio while working here.

This studio has limited resources. We try to provide the best tools we can afford so please protect them (and yourself) from harm by using the tools wisely. Also please make an effort to not only clean up after yourself but to put tools and materials back where they belong! That way the next person will be able to find and use them.

1. Where are the fire extinguishers?

1.	2.
----	----

2. Which hammers are the only hammers in this studio that are okay to hit steel directly with?

1.	2.
----	----

3. Name two important facts about protecting steel tools from damage.

1.
2.

4. What materials should never go through the rolling mills at Danaca Design?

--

5. Why not leave the cap off the silverblack?

--

6. What happens when you put a piece of steel and a piece of silver in the pickle together?

--

7. What tool do you use to clean a file of metal filings? Why do this?

--

8. List three key safety points about using the flexshaft, buffing machine or any power tool in the studio that spins.

- 1.
- 2.
- 3.

Agreement and Signature

Please read and sign the waiver below:

Assumption of Risks: the use of Danaca Design/Metal Crafting Center and Gallery, facilities, staff, equipment, and/or services carries with it certain inherent risks, as does any activity, which cannot be eliminated regardless of the care taken to avoid injuries. In consideration of permission to use, today and all future dates, the facilities, staff, equipment and services of Danaca Design: Metal Crafting Center and Gallery, I hereby waive Danaca Design: Metal Crafting Center and Gallery, its directors and employees from liability from any and all claims resulting in personal injury, accidents, or illness, and property loss arising from participation in activities, classes, and use of facilities, premises or equipment.
